

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT.

To the Honorable the Legislature of the State of New York :

The Trustees of the State Library respectfully submit this their Forty-seventh Annual Report:

At the close of the year 1863, the whole number of volumes in the general library was..... 47,907

In the law library 18,393

Making a total of..... 66,300

At the close of the year 1864, the whole number in the general library was..... 49,714

In the law library 18,746

Making a total of..... 68,460

The additions during the year have therefore been to the general library..... 1,807 vols.

To the law library..... 353 "

Making a total of..... 2,160 "

Of which 1,592 volumes have been added by purchase, and 568 by donation and exchange.

The causes of the diminished growth of the library—the increased price of books and no increase of means at the disposal of the Trustees—alluded to in the last report, have continued during the past year. They have imposed the necessity of suspending the purchase of nearly all foreign works, except such as are imperatively demanded for the law library. Enlarged appropriations will be hereafter required to supply the deficiencies thus created, and it is respectfully submitted to the consideration of the Legislature how far a wise economy will permit these deficiencies to accumulate. They must at some time be supplied, or the character of the library will be seriously impaired.

The condition of the general library, in regard to the preservation of the books, is entirely satisfactory, and it is believed that in no former year has it contributed more to the purposes for which it was established. It is constantly consulted, especially in the department of American History, which has always been a cherished specialty, and it is gratifying to know that the materials which it has gathered are largely applied to illustrate the history of the country.

The law library is exhibiting in a very marked way the effects of use, by a large number of young men who are engaged in reading law, and who evidently make the library their school for study. The Trustees have, from time to time, endeavored to regulate this matter, so as to remove the complaints made by members of the Legislature, the judges of the courts and members of the bar, but with little effect.

The system of international exchange established by M. Alexander Vattemare in 1840, has terminated by his death. This library was long connected with that system, and the Trustees bear willing testimony to the zeal with which its author devoted his energies to its support. If it failed fully to secure his high expectation, "the intellectual union of nations," it certainly contributed to a more extended dissemination of their literature and a better knowledge of what each was accomplishing in the discoveries of science. The Trustees of the library confidently hope to be able to continue and extend their foreign exchanges, by their correspondence with learned societies, and through the aid of our own foreign ministers and consuls, from whom they have uniformly received a ready and cheerful co-operation.

In the original distribution of the first published volumes of the Natural History of the State, a copy was sent to the government of Japan. Those since published have been forwarded through the Hon. Robert H. Pruyn, Minister Resident of the United States to that country. A letter of acknowledgment, in the Japanese language, signed by ministers of the Taicoon, has been received, of which the following is a translation, with a return present of two beautiful gold coins, one of the value of more than fifty dollars.

*"To His Excellency ROBERT H. PRUYN, Minister Resident
of the United States of America, &c., &c., &c.*

The five folio volumes presented through you by the State of New York—United States—to His Majesty the Taicoon, have been shown by us to His Majesty.

His Majesty was greatly pleased with this present, believing that these volumes will contribute to the increase of science and knowledge in Japan.

While tendering his thanks for the same, we beg to offer two Japanese gold coins as a return present, and request you to send them to the State of New York.

Stated with respect and esteem,

On the 6th day of the 8th month of the 3d year of Bem
Kin (September 18, 1863).

(Signed) MATSUDAIRA~BOODZEN NOKAMI,
MIDSUNO IDSUMI NOKAMI,
ITAKURA SUWO NOKAMI,
INOWUYE KAWATSI NOKAMI,
ARIMA TOTOMI NOKAMI.

(A true translation,)

A. H. C. PORTMAN.

The above Daimios compose the Gorogio or Ministry of Japan."

The Trustees gratefully acknowledge their obligations to Mr. Pruyn for a general collection of Japanese coins, as well as for his kind and prompt attention to the matter above referred to.

Catalogues of books received by donation and exchange, and of all additions to the library during the year are appended to this report, and also a statement of receipts and expenditures for 1864.

Respectfully submitted, by order of the Trustees,

JOHN V. L. PRUYN,

Chancellor of the University.

REPORT.

To the Honorable the Legislature of the State of New York:

The trustees of the State Library respectfully present this their Forty-eighth Annual Report:

At the close of the year 1864 the whole number of volumes in the library was	68,460
Of which there were in the general library.....	49,714
In the law library.....	18,746
At the close of the year 1865 the whole number was....	70,937
In the general library.....	51,907
In the law library	19,030
The additions for the last year were, to the general library.....	2,193
To the law library.....	284
<hr/>	
Total additions in 1864.....	2,477
Of these there were acquired by purchase.....	1,580 vols.
By donation and exchange.....	897 vols.

Among the additions by exchange the trustees specially notice the following scientific works from the distant colony of Victoria:

Australian Mosses, 1 vol. 8°.

Vegetation of Chatham Islands, 1 vol. 8°.

Lithograms of Plants indigenous to Victoria, 1 vol. 4°.

Meteorological and Nautical Observations, 1 vol. 4°.

Two Geological Maps of Victoria.

Ten Geographical Maps of Victoria.

In addition to the above are eleven Parliamentary Papers illustrative of the condition and resources of the colony.

A donation of forty-one volumes, chiefly in folio, consisting of English Law Reports and Treatises of early date, has been received from Gen. J. Watts DePeyster.

Among the additions are more than five thousand pamphlets, mostly by donation and exchange, which have been assorted, catalogued and bound into two hundred and fifty-seven volumes. A large amount of material hitherto inaccessible has thus been made available for the purposes of examination and study.

When the library, in 1844, was placed in charge of the Regents as its trustees, the number of volumes was estimated at ten thousand. This number had increased in 1855 to forty thousand, and in 1865 to seventy thousand. The average yearly increase during each of these decades was, therefore, about three thousand volumes. It is gratifying to the trustees that, with the small sum at their disposal for the purchase of books, and the high prices which they command, they have been able to bring the additions of the past year so near to the average of former years. It is, however, proper to state that they have been under the continued necessity of delaying the purchase of many works imperatively demanded to maintain the high character of the library, until the means at their disposal shall be considerably enlarged. With even the present rate of increase, the shelves of the library are becoming filled. The trustees would feel impelled to urge the necessity of soon providing enlarged space for the books, and better accommodations for readers, but for the expectation that in the erection of the proposed new Capitol ample provision will be made for the State Library.

The number of readers in the general library during the past year has been, according to a most careful estimate, at least five thousand. The number, by actual count, during the months of January and February of the present year, was over fifteen hundred, without including either the numerous visitors, or those who, under the regulations, have drawn books from the library.

The books of the law library are in more constant use. They are consulted by members of the Legislature during its session, by the State officers and judges of the courts, and by members of the bar. All citizens of the State have, under proper regulations, an undoubted and equal right to its use for the great purpose of a library of reference, for which it was established. The trustees feel bound to call the attention of the Legislature to its very large use as a place of study, by law students and the members of the Law School of this city. This school, under the instruction of its able professors, has acquired a deserved and widely extended celebrity, and is believed to number more students than any other in the country. Many of these find the treatises and reports with which the library is supplied, of great convenience in the study of the subjects discussed in the lectures of the professors. The number who thus resort to the library is often so large as almost to exclude others from its use. The effect of such constant and

common use of the library has already become apparent in the impaired condition of the books, and if it continues, the trustees will soon be obliged to call on the Legislature for means to renew and replace a considerable portion of the law department. They have every disposition to encourage and aid the professors and students of this school in their efforts to elevate the profession of the law; but they have felt obliged, as guardians to whom is intrusted the care and preservation of the library, to call the attention of the Legislature to the condition of things above referred to.

The indexing of the twenty-two volumes of the papers and correspondence of Sir William Johnson, has been completed as directed by the joint resolution of April 5, 1856. The combined work of the librarians, Mr. Homes and Mr. Pratt, it has been executed with great care, and to the entire satisfaction of the trustees. This index makes available a mass of material illustrative of an interesting period of American history, and of the acts of one of the ablest colonial officers.

Since our last report was presented, the first supplement of the catalogue of the law library has been printed in conformity with the statute.

The usual statements of cash receipts and expenditures; of books and pamphlets received by donation and exchange, and of volumes catalogued and placed on the shelves of the library during the year 1865, are hereto appended.

Respectfully submitted, by order of the regents,

JOHN V. L. PRUYN,

Chancellor of the University.

REPORT.

To the Honorable the Legislature of the State of New York:

The Trustees of the State Library respectfully present this their Forty-ninth Annual Report:

At the close of the year 1865, the whole number of volumes in the library was.....	70,937
Of which there were in the general library.....	51,907
In the law library	19,030
At the close of the year 1866, the whole number was....	72,797
In the general library.....	53,297
In the law library	19,500
The additions for the last year were, to the general library	1,390
To the law library.....	470
Total additions in 1866.....	1,860
Of these there were acquired by purchase.....	948
By donation and exchange.....	912

Among the additions to the general library by purchase or exchange, during the past year, are the following valuable works:

Labbeus, P., *Sacrosancta Concilia*. 1671-72. 17 vols.

Sirmond, J., *Concilia Antiqua Galliae*. 1629. 3 vols.

Cannon's *Historical Records of the British Army*, comprising the history of every regiment. 1834-47. 61 vols.

Celtic Society's Publications. 1847-55. 6 vols.

Shakespeare Society's Publications. 1841-53. 48 vols. bound in 20 vols.

A Collection of Proceedings of Free Masons' Lodges in thirty of the States and Territories. 1824-63. Bound in 25 vols.

The Trustees have often had occasion to acknowledge the liberal gifts of James Lenox, of New York. To those of former years, he has added a copy in German, of De Bry's *Collectiones Pererrinationum in Indiam Orientalem et Indiam Occidentalem*. This

collection embraces parts one to nine of the Large Voyages, printed 1596-1601, and parts one to eleven of the Small Voyages, 1597-1618. The editions in German are much more rare than those in Latin. Mr. Lenox has also presented three editions (1617, 1631 and 1655) of the abridgments of these voyages in German, and the second edition of the fourth, fifth and sixth parts of the editions in Latin.*

Among other valuable donations, the Trustees also mention the following: Instituto Historico, Geographico, Ethnographico do Brasil: Revista Trimensal: Tomo I-IV, 1839-1842: T. XII-XXVI, 1849-1863. 19 vols. Presented by the Institute of Brazil.

The shelves of the general library having become entirely filled; four temporary cases, capable of containing about 1,500 volumes, have been provided. After the present year, additional cases will be from time to time required, until more ample accommodations are furnished in the proposed new Capitol.

The number of visitors to the general library during the past year was about twenty-seven thousand, of which number the actual readers were about nine thousand.

An important part of the usual additions to the law library consists of law reports, and of statute law and State papers; many of which are obtained by exchanges with other States. The Trustees are happy to state that during the past year they have resumed exchanges with the Southern States. The legislative acts and proceedings thus interchanged will furnish to both sections documentary history of great value, which could scarcely be otherwise obtained.

The large use of the books of the law department by members of the Law School in this city, to which the Trustees in their last report called the attention of the Legislature, still continues, and with marked evidence of its effects. Ordinary works, when worn out, may be replaced by purchase. There are others of rare value, which, when they disappear or are greatly impaired, cannot be again supplied.

In the selection of books for the several departments of the library, the Trustees are guided by the desire to make it as largely useful as possible for purposes of *reference*. For this reason,

* The library was previously in possession of a copy, in Latin, of the first edition of all the Voyages, which Mr. Lenox, who has, it is believed, the most extensive collection in existence of the various editions of De Bry, regards as one of great excellence.

many books are purchased which would be of little use in a *circulating* library, while others, frequently met with elsewhere, are wanting. Many rare and antique works, procured from time to time, at moderate prices, have afterwards acquired a greatly increased value. The demand for this class of books, by the frequent formation of historical societies and public libraries, is increasing much beyond the sources of supply. They must therefore be procured whenever opportunity presents.

The Trustees, having always regarded American history as an important specialty, are collecting and preserving, so far as their facilities and means allow, whatever tends to illustrate either the general or any portion of the local history of the country. An important part of such a collection consists of genealogical registers, historical and biographical sketches and discourses, official manuscripts, copies of books intended for limited circulation, reports of voluntary and business associations, files of newspapers and public documents.

The Trustees earnestly invite contributions to the various departments of the library, which will be duly acknowledged from every source from which they may be received. Duplicate copies of public documents, and of miscellaneous books and pamphlets, are often needed for purposes of exchange.

The usual statement of cash receipts and expenditures; of books, pamphlets, maps, coins, medals, &c, acquired by donation and exchange, and of volumes catalogued and placed on the shelves of the library during the year 1866, is hereto appended.

Respectfully submitted, by order of the Trustees.

JOHN V. L. PRUYN,
Chancellor of the University.
